“PLASMA LIFT”

Product Description

The BEI Motorized Plasma Lift is designed for raising a plasma display from a cabinet or lowering it from the ceiling. This product can be supplied in our furniture quality cabinets or provided as "mechanism only" to be installed in an existing cabinet or other suitable enclosure. Note: Due to the numerous installation scenarios, it is recommended that the BEI Motorized Plasma Lift be professionally installed.

Features & Benefits

- 5 year warranty.
- Mechanism is designed around a sturdy T-slot aluminum frame system.
- Works with most commonly available wall mounts.
- Capable of lifting up to 200 pounds.
- Standard travels of 28, 38 & 48".
- Custom configurations are available.
- UL listed motor-in-roller.
- Control options include line voltage switching or low voltage control via wall switch, contact closure, RS232, IR remote or RF remote.
